

Highlights

Diagnosis on Demand - Diagnosis at OE level!

With the help of the innovative diagnostic solution „Diagnosis on Demand“(DoD), workshops are provided with the ideal automotive diagnostic device to easily program and code electrical vehicle systems as required. With DoD, you can reach OE levels in terms of service and diagnostics without having to invest in expensive

equipment and high fixed costs. Tailored to the respective service, you only pay for the service you have actually used. To gain direct access to the vehicle data, the DoD diagnostic device establishes an online connection between the vehicle and the Herth+Buss diagnostic team.

TesTip – Practical test lead set

The TesTip test lead set contains various test lead adapters with which the functions of the multimeter can be expanded to include further measured variables. The adapters allow both simplified troubleshooting and safe signal tapping through direct contacting with electronic automotive components. The 94-piece set includes all common plugs and plug sleeves as well

as a measuring bridge that allows you to reach into the circuit without damaging seals. The set is equipped with flexible measuring tips that will not break even if the resistance is a little higher. In addition, the test lead set includes polarity testers, measuring potentiometers and measuring resistors.

The online catalogue – all parts in one place!

Are you missing the spare part you need?

You are certain to find the perfect product in our online catalogue.

- Quick and easy part identification
- Vehicle allocations, reference numbers, criteria and product images for over 27,700 items updated every month
- Technical data, parts/accessory lists, service information, installation instructions
- Country-specific and in 20 languages
- OE references
- Premium universal parts search

HERTH+BUSS

From small to large – the whole range!

HERTH+BUSS

The specialist in vehicle electrics!

With our Elparts range we offer a comprehensive product spectrum that meets any requirement, from automobiles to commercial vehicles. This is our professional workshop solution and that's why we're always first choice.

- Our services for you:
- over 11,600 universal parts
 - over 5,700 vehicle-specific parts with 1,400,000 vehicle links
 - comprehensive range for all vehicle types
 - exactly fitting parts allocation
 - professional-quality solutions from Herth+Buss
