# “Real-life” implemented improvement process

We, the management are committed to the TQM concept, because we value the trust our customers place in us and want to maintain it in the long term.

We see our relationship with our customers as a partnership which must be constantly improved. As a result, we continuously check even established processes for opportunities for improvement.

And not because anyone is forcing us to do so, because we have met the criteria for the ISO certification for a long time.

Instead, we are motivated by the chance to achieve even better results in our work together and to help our customers to increase their competitiveness and hence secure their long-term success.

That is what we call a “real-life implemented improvement process”, and it is also what our many long-term customers especially appreciate about their cooperation with Herth+Buss.

## We are certified according to:

- ISO 9001:2008 Quality management
- VDA 6.2 Quality management
- StVZO Verification

## From small to large – the whole range!

With our Elparts range we offer a comprehensive product spectrum that meets any requirement, from automobiles to commercial vehicles. This is our professional workshop solution and that's why we're always first choice.

### Our services for you:

- over 7,700 special parts
- comprehensive range for all vehicle types
- exactly fitting parts allocation
- professional solutions thanks to over 90 years of experience

**Passt immer!**

## SHOP TO GO – the ideal partner for perforated walls at the POS

Goods that are presented in a tidy, well thought-out manner with a uniform appearance entice customers to buy and give an impression of a competent and professional business. We are showcasing our new-look, self-service product concept with items from the field of installation. This range includes some of our most-used and most sought-after items. Retailers can select the most important goods for their clientele from the range of self-service products on offer, with the uniform self-service packaging ensuring that they fit onto any conventional perforated wall. A Herth+Buss label is also available for the top of the shelf, so that

customers can already see from afar that they are browsing the self-service range of Herth+Buss parts. What's more, a QR code printed on the packaging provides users who have a smartphone or tablet with additional, detailed product information. A comprehensive self-service catalogue is also available for the self-service range, including products such as connectors, cable straps, cables and cable connections, plugs and sockets, battery accessories, plug housings and fuses. Users can also touch the electric cables on offer to make it easier to recognise and check materials.

QR code on the back leads to further information.

### SHOP TO GO CATALOGUE

Our Shop-to-go catalogue contains everything relating to:

- Connectors
- Cable straps
- Cables+cable connections
- Plugs+sockets
- Battery accessories
- Plug housing
- Fuses

### Information on our order quantities

Please bear in mind the quantity indicated in the "delivery unit" column (LE) for your planning. We can only deliver the quantities indicated here, or quantities divisible by the delivery unit number.  
1 and higher = parts with a delivery unit

of 1 are packaged individually. All other delivery units are packaged together in the quantity indicated.

New additions to the catalogue are labelled with the "NEW" symbol.

## Overview of IP-Code components (extract)

The protection categories are indicated by an abbreviation which is comprised of the letters IP (International Protection) which always remain the same, followed by two code numbers which represent the degree of protection. The first code number represents the degree of protection against contact and foreign bodies, and the second represents the degree of protection against damage caused by water penetration.

First no.	Level of protection against touch	Level of protection against intrusion of foreign bodies	Second no.	Level of protection against water penetration
0	not protected	not protected	0	not protected
1	back of hand	object with Ø over 50 mm	1	vertical droplets
2	finger	object with Ø over 12.5 mm	2	droplets at 15° tilt
3	tools	object with Ø over 2.5 mm	3	spraying water
4	thin wire	object with Ø over 1 mm	4	splashing water
5	thin wire	dust-protected	4K	splashed water, at high pressure, only for road vehicles
6	complete	dust-tight	5	water jets
			6	powerful water jets
			6K	powerful water jets, at high pressure (flooding), only for road vehicles
			7	temporary submersion
			8	continuous submersion
			9K	for pressure/steam jet cleaning, only for road vehicles

### Example

First code number 6 = complete touch protection and dust-protected  
Second code number 5 = protected against water jets

# VDA

## Verband der Automobilindustrie

### Installation by specialist only

The VDA working group for suppliers' aftermarket business is the representative of parts manufacturers in the German automotive industry, with their global heads in the aftermarket area. One of the main issues addressed by the group is the use of parts safety to constantly guarantee or increase road safety for drivers

It has been noted that driver safety can be put at risk especially by improper installation of parts that are intended for installation by a workshop, not unqualified persons.

The aftermarket working group has therefore commissioned a pictogram for "Installation by specialist only". This pictogram for international use can be attached to the packaging of workshop parts for information purposes and indicates to the consumer that installation by a specialist workshop is recommended. The pictogram symbol has been developed as part of a market research study and successfully tested for clear understanding in a range of countries.

### Cross-linked catalogues!

Our catalogues are cross-linked to provide the quickest and clearest access possible to extensive product information. Parts lists and accessories lists provide information on the scope of delivery and useful accessories. The accessories products can be found either in the same catalogue and are listed with a page reference, or they are products from another catalogue and are provided with an article number.

Accessories	see	DU	
Crimping Pliers Insert Set	Katalog08	1	5942173
Crimping Pliers CrimPro 30	Katalog08	1	5942166
Sealing-/Protection Plugs	Katalog08	1	5942164
	Page 108	1	0282022

#### Practical example

You have found a crimp connector in the Installation Catalogue (Katalog04EN), for example, then you see the corresponding pliers or release tool listed as accessories. Comprehensive information on these tools is then provided in the Tools Catalogue (Katalog08EN).

## E-catalogues

Take advantage of the many functions of our interactive e-catalogues. Searching for products here couldn't be easier. Using the full-text search, you can scan the contents of the entire catalogue, regardless of whether you know the article number or just the

name. You can save your search results by either using a bookmark or by generating certain pages as a PDF. You can also use the interactive article numbers. These link directly to our online catalogue, which will provide you with additional information.

### Dimension specifications

The dimensions of our body fasteners are specified for the width, height and depth, diameter and pitch circle diameter, amongst other things. This is shown in the catalogue as follows.

### Legal information

With the publication of this catalogue, all previous offers lose their validity. Only our order confirmation shall be relevant for the subject matter of the contract. We shall supply exclusively on the basis of the latest version of our general conditions of sale and delivery. The catalogue is intended for the commercial sector only. All information in this catalogue has been carefully researched and reproduced. Technical modifications in the course of further development and variations in the shape, colour and the allocation of article

numbers for each product described are reserved. In particular, we do not guarantee the complete consistency of the illustrations with the product. Claims for compensation due to printing errors or other incorrect and/or incomplete information are excluded, unless we are liable for intent or gross negligence or damages are due for bodily injury, loss of life or damage to the health of a person. The reproduction of genuine part numbers or competitor article numbers is for the purposes of comparison only. The ar-

ticle numbers listed in this catalogue are the intellectual property of Herth+Buss Fahrzeugteile GmbH & Co. KG. Furthermore, we retain all rights for the documents. Reproduction, even in part, is only permitted with our prior written permission. The products supplied by us may only be used for their intended purpose. Fitting must only be performed by trained specialists.

## ClipFix – Effortless fixing!

There are different clips for many areas on the vehicle which secure the connection between the body and panelling, for example on panelling in the boot, in the vehicle's interior, such as the door panelling, in the engine bay, clips for sidebars etc. The product group ClipFix offers an extensive range, which includes clips,

blind rivets, retaining clips, expanding rivets, screws and other fixing parts. We also offer various ClipFix assortments. Depending on the equipment variant, these contain up to 240 parts and fit vehicles from BMW, Mercedes-Benz, VAG, Ford or Vauxhall (Opel).

# Find parts quickly!

## The new premium universal part search

herthundbuss.com/  
online-catalogue

### Free text entry

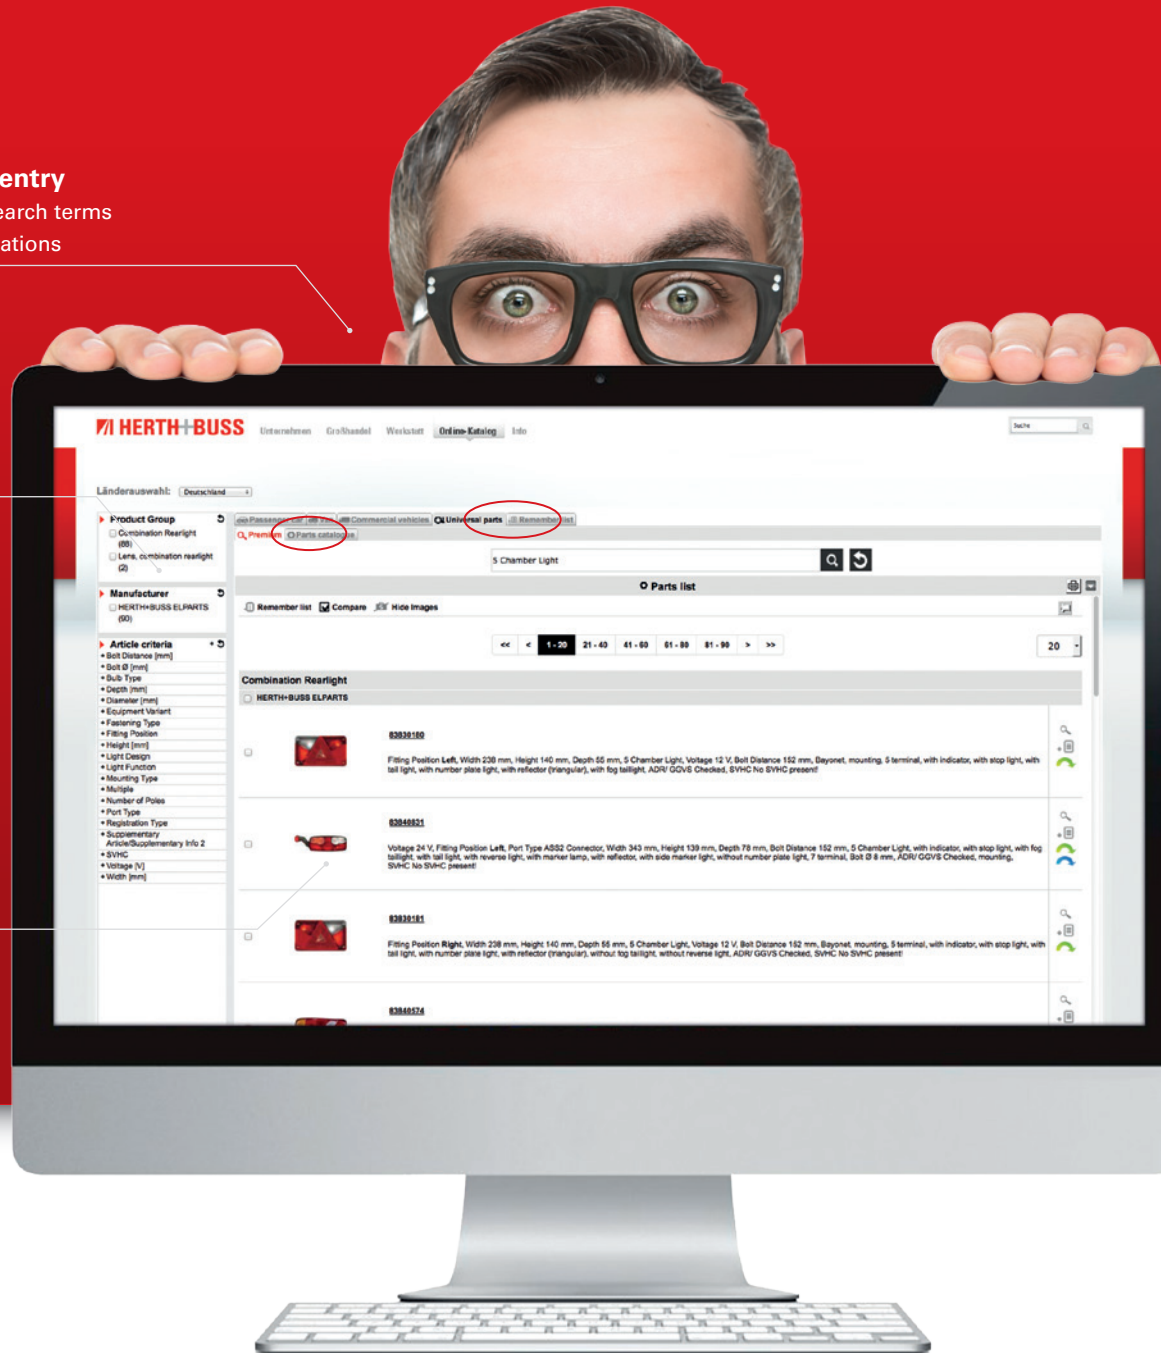

Enter any search terms  
and combinations

### Filtering

by product groups  
and criteria

### Details

A click on the article  
displays additional  
information such as  
technical data, parts and  
accessory lists, service  
information, installation  
instructions

### Are you missing the spare part you need?

A significant amount of time in a workshop is devoted to meticulous universal part searches and the ever growing range of parts usually means that searches are extremely time-intensive. With the new premium search, it is now possible to filter universal parts by product groups and based on a variety of different search criteria.
